In early spring of each school year, Colorado State University Police Department Records Division begins compiling statistics from the prior year as required by the Clery Act (hereinafter “the act”). A group of professionals from several departments across campus meet, as required by the act, along with legal counsel to assure that the report presented meets the requirements of the act. This process is designed to ensure that students, potential students, employees, potential employees, and parents have the most accurate information possible regarding crime and safety, and related policies, at Colorado State.
A safe and secure environment at Colorado State University allows students, faculty, staff and visitors to successfully live, study, work, and enjoy all the benefits of a vibrant college community.

Your safety on campus is among our highest priorities as a University, and Colorado State has an excellent reputation as a relatively low-crime campus. Still, incidents can occur anywhere, and preserving a welcoming, peaceful environment begins with providing open access to information about campus crime incidents, reporting, and resources. This report helps spotlight safety issues and statistics on our campus and provides the most current information about ways to help keep you and your environment secure and free from harm.

Colorado State takes a strategic, integrated approach to campus safety planning, beginning with a fully functioning Public Safety Team, led by the Office of the President, that ensures we are well-coordinated, trained, and prepared in the event of an emergency, crime, or natural disaster. This team works to ensure all aspects of campus safety are addressed in our planning and to regularly assess campus safety concerns. We are also proud to be home to a full, professional law-enforcement operation, the CSU Police Department, and to provide services such as RamRide and the SafeWalk Program to support the needs of our students and campus.

Still, your own common sense, careful planning, and understanding of available resources are the best tools to help you avoid becoming the victim of a crime, whether you are on CSU’s campus or in the greater community. Prepare yourself by learning more about CSU’s campus safety programs – along with our rules and expectations. We encourage students and parents both to read and understand the information provided about substance abuse, alcohol poisoning, and student obligations to friends and peers. Abuse of alcohol and drugs is a serious issue on almost all college campuses, and it is important you understand CSU’s expectations related to drug and alcohol abuse, as well as our processes for working with students who violate campus regulations.

Read this booklet, ask questions, and make your safety at Colorado State a personal priority.

Sincerely,

Dr. Tony Frank
President
Each year, Colorado State calls upon every student, faculty, and staff member to work together to maintain and strengthen the vitality, security, and health of this campus. To meet this challenge, you need to be well-informed. This report is intended to do that and make you a member of a safety-conscious community – a place where you will enjoy learning, living, and working.

Alcohol and Other Drugs

This section of the 2011 Fire and Safety Update describes University policies and programs concerning alcohol and other drugs. Page 4 illustrates the legal sanctions of drug and alcohol-related offenses. Although it is not a comprehensive list, it will give you a basic understanding of the serious legal penalties that can arise from unlawful possession, distribution, and use of illicit drugs and alcohol. On page 5, we’ve outlined the physical effects and health risks associated with the use of illicit drugs and the abuse of alcohol.
Drug and Alcohol Policy

Providing a positive environment in which students can study and live securely and comfortably is a priority in Colorado State’s residence halls. The halls support and encourage social activities, but these are secondary to the rights of students to live in an atmosphere that supports academic success and personal well-being. Alcohol and drug use negatively impact the hall environment. Consequently, the following policies address the use of drugs and alcohol in the halls.

• No fermented malt beverages, intoxicating liquors, and illegal drugs are allowed in any of the residence halls.

• Colorado State students are expected to comply with state law regarding the purchase, possession, and consumption of alcoholic beverages.

• The sponsor of a social event could be held liable in a civil suit if state or local laws are violated (i.e., supplying alcohol to underage persons or supplying alcohol to an intoxicated person).

• A violation of the residence hall alcohol policy or state law will result in disciplinary action.

• Alcohol violations within a residence hall room will result in student conduct hearings for all involved.

• Arrest for underage possession and consumption of alcohol may result in the issuance of a summons and complaint followed by immediate release from police custody. University Police will refer the student to Housing/University discipline and may take formal police action.

• Residence hall students are expected to abide by federal, state, and city laws and ordinances with respect to the use of dangerous drugs and narcotics.

• Students who break these laws will receive no immunity from arrest or prosecution because they live in the residence halls.

Psychoactive drugs are most frequently used for social or recreational purposes. Many psychoactive drugs produce tolerance and dependence (psychological, physical, or both). The more frequently a person uses a drug and/or the larger the dose, the greater his or her tolerance to the drug. A person who is physically dependent on a drug needs it to function “normally.” Discontinued use of the drug results in withdrawal symptoms that can be painful and even life-threatening. Taking the drug again temporarily relieves these symptoms. A psychologically dependent person feels he or she cannot function “normally” without the drug. There can be severe mental and emotional distress that prompts the person to continue using the drug.

*Impairs driving ability
Stop Alcohol Poisoning

Symptoms of alcohol poisoning
1. Person is unconscious or semi-conscious and cannot be awakened.
2. Cold, clammy, pale, or bluish skin.
3. Check to see if breathing is slow, less than eight times per minute, or irregular, with ten seconds or more between breaths.
4. Vomiting while “sleeping” or passed out, and not waking up after vomiting.

If a person has any of these symptoms, he or she is suffering from acute alcohol intoxication.

1. Get help. Call 911, a staff member, or an ambulance.
2. Do not leave the person alone. Turn the victim on his/her side to prevent choking in case of vomiting.
3. Always be “better safe than sorry” if you are not sure what to do.

How can your friend be angry about you caring for him or her?

A Matter of Friendship

“When everything is said and done, it all comes down to friendship. You have a friend who is in a state where he or she cannot take care of or make decisions for himself or herself. So, who is going to do it for them? You may not want to act because you are afraid that when your friend wakes up he or she will be mad at you. But you
know what? Your friend will wake up. And how mad can someone be because you did something out of caring and friendship? The next day you can ask if your friend is OK. The next day, you can express your concern with your friend’s drinking. The next day you can even be angry with your friend for putting you in this scary situation. But for now, act! Get help! Call someone! And make sure you and your friend have another day together. It might be the greatest thing you could ever do in the name of friendship.”

Remember... in emergencies dial 911.

police.colostate.edu
Club Drugs

Club drugs continue to grow in popularity with teens and college-aged students nationwide. While many users may experience sensational highs accompanied by numbness and other body stimulating effects, they fail to recognize these substances as real drugs; however, these drugs are very real and so are the dangers. According to research from the National Institute on Drug Abuse, club drugs “can have long-lasting negative effects on the brain that can alter memory function and motor skills.”

Ecstasy (MDMA): Ecstasy is an entactogen that is also called X, E, Clarity, and XTC. Ecstasy may result in decreased appetite, hallucinations, increased heart rate and blood pressure, muscle seizures, anxiety, and sweating. It also causes the body to overheat. This in turn leads to dehydration and hyperthermia, forcing users to take frequent breaks and drink water. MDMA can have serious long-term effects, causing damage to parts of the brain that are critical to thought and memory, as well as clinical depression.

Ketamine: Ketamine is a dissociative anesthetic, sold legally to veterinarians for anesthesia. Ketamine is commonly referred to as K, Special K, or Vitamin K. It is usually ingested in liquid or powder form. Ketamine is an extremely unpredictable, volatile drug that stimulates
heart rate, blood pressure, and breathing to dangerously high levels. Panic, rage, paranoia, numbness, loss of coordination, and difficult breathing are all additional symptoms of Ketamine.

**GHB:** GHB is a euphoriant depressant also known as Liquid G, Liquid X, and GHB. It is a very powerful, fast-acting central nervous system drug. Symptoms include dizziness, nausea, slowed heart rate and breathing, and deep sleep. These symptoms become extremely dangerous when GHB and alcohol are combined. GHB is frequently used and implicated in date rape cases. See page 42 for sexual assault information.

**Rohypnol:** Rohypnol is a tranquilizer and sedative drug. It is a colorless, odorless, and tasteless drug that has been associated with date rape and sexual assault incidents nationwide. Its almost undetectable properties make it easy to slip into the beverage of an unsuspecting victim. Rohypnol affects the brain’s memory processing and causes “retrograde amnesia,” which is similar to a blackout. Users will be unable to remember events that occurred while under the drug’s influence. *See the section on sexual assault (beginning on page 42) in order to protect yourself from Rohypnol and GHB drink spiking.*
Marijuana

A person should consider the four Ms before deciding to use marijuana.

**M1 – Memory:** Studies show that marijuana disrupts short-term memory or the process in which recent events and information are encoded in memory.

**M2 – Motivation:** Observational studies directly link marijuana use to lapses in motivation. As a result, marijuana is referred to as a “spectator drug,” turning a person into a passive spectator in his/her own life.

**M3 – Money:** The cost of maintaining any dependency affects not only personality, goals, and health, but finances as well. When making budget priorities, consider the real cost of marijuana use and where the money could be better spent.

**M4 – Mental:** Many people are aware that marijuana is psychologically (or mentally) addictive and not necessarily physically addictive. So, they think physical addiction is not something to worry about. The psychological aspects of marijuana addiction can take years to overcome, whereas the physical aspects take merely a few days, or maybe weeks. The THC content of most marijuana in the United States ranges from 5 to 12 percent. Hashish is around 25 percent.

Violations and/or convictions of University policies and the laws listed on pages 3-4 will result in University discipline. The University must take such action within 30 days after receipt of any notice with regard to an employee who has been convicted of a listed offense. Sanctions for employees may include mandatory participation in a drug abuse assistance or rehabilitation program or disciplinary action such as a reprimand, suspension, salary reduction, demotion, or termination of employment. Sanctions for students may include a warning, probation, suspension, eligibility for financial assistance, athletic ineligibility, expulsion from University housing, or dismissal or expulsion from the University itself.
On University premises or at any University-sponsored activities, the following acts are prohibited:

1. Manufacture, sale, distribution, dispensation, possession, or use of any illegal drug or controlled substance without legal authorization such as a prescription.

2. Providing alcoholic beverages to individuals under 21 years of age or possession of alcoholic beverages by individuals under 21 years of age.

3. Illegal possession of an open container of an alcoholic beverage, public intoxication, driving while intoxicated, or drinking alcoholic beverages in an unlicensed public place.

The University has policies governing the possession, use, and sale of alcoholic beverages and enforcement of state underage drinking laws, as well as the possession, use, and sale of illegal drugs and enforcement of federal and state drug laws. These policies may be viewed online at: http://policies.colostate.edu (navigate to “Alcohol and Drugs/Alcohol on Campus”). The sale of alcoholic beverages is strictly prohibited on campus except where expressly authorized for an Official Function, with the proper permit, or in a licensed establishment operated by the University or by a licensed vendor on the University’s behalf. Alcohol is never permitted in the residence halls.

Employee compliance with the above policy is required as a condition of employment. Any employee convicted of violating a criminal drug statute must so notify their employer within five (5) days of the conviction. The University, in turn, is obliged by law to report certain convictions to the federal government.

As part of CSU’s comprehensive approach to alcohol and sexual assault education, it is required that all new incoming students (both transferred and first year) under the age of 23 as of July 17, 2011, complete an online evidence-based program called Alcohol Edu/Sexual Assault Edu. Whether you choose to drink or not, Alcohol Edu/Sexual Assault Edu will provide a tailored experience to explore your perceptions about college drinking, provide feedback about high-risk behaviors, campus expectations
and consequences, while empowering you to make well-informed choices about alcohol while at CSU.

For further information about alcohol and drugs educational programs and individual assistance, call CSU Health Network at 491-1702 or visit our website, www.health.colostate.edu/HealthEducation/Alcohol/Index.cfm, under substance use.

It is the policy of the state of Colorado that treatment may be more appropriate for alcoholics and intoxicated individuals than criminal prosecution. It is felt that they should be afforded a continuum of treatment in order that they may lead normal lives as productive members of society [C.R.S. § 25-1-301(1)].

The Colorado general assembly has appropriated moneys for alcoholic receiving and screening centers, medical detoxification, intensive treatment, halfway house care, outpatient rehabilitative therapy, orientation, education, and in-service training [C.R.S. § 25-1-301(2)]. The Colorado Department of Health’s Division of Alcohol and Drug Abuse has established a comprehensive and coordinated program for the treatment of alcoholics and intoxicated persons [C.R.S. § 25-1-305(1)]. Insofar as funds are available to the Division, the program of the Alcohol and Drug Abuse Division includes: emergency treatment; inpatient treatment; intermediate treatment; outpatient and follow-up treatment; and adequate and appropriate treatment for alcoholics and intoxicated persons who voluntarily apply for treatment and those who are involuntarily committed by the court [C.R.S. § 25-1-305(2-3)].
Voluntary treatment of alcoholics [C.R.S. § 25-1-308]. An alcoholic, including a minor, may apply for voluntary treatment directly to an approved treatment facility.

Voluntary treatment for intoxicated persons and persons incapacitated by alcohol [C.R.S. § 25-1-309]. An intoxicated person or person intoxicated or incapacitated by alcohol, including a minor, may voluntarily admit himself/herself to an approved treatment facility for emergency treatment.

Emergency commitment [C.R.S. § 25-1-310]. When any person is intoxicated or incapacitated by alcohol and clearly presents danger to the health and safety of himself/herself or others, he or she will be taken into protective custody by law-enforcement authorities or an emergency service patrol, acting with probable cause, and will be placed in an approved treatment facility.

Involuntary commitment of alcoholics [C.R.S. § 25-1-311]. A person may be committed to the custody of the Division of Alcohol and Drug Abuse by the court upon the petition of his or her spouse or guardian, a relative, a physician, the administrator in charge of any approved treatment facility, or any other responsible person.

Driving under the influence. Driving while impaired. Driving with excessive alcoholic content [C.R.S. § 42-4-1301]. The Colorado Division of Alcohol and Drug Abuse has established an alcohol- and drug-related driving safety fund [C.R.S. § 42-4-1301.3]. All persons convicted of a driving offense involving alcohol or drugs will result in license revocation for one year, orders by the court to complete an “alcohol- and drug-related driving safety education or treatment” program, and require community service as part of any conviction. A mandatory alcohol and drug evaluation will also take place upon conviction.

CSU Health Network supports the personal and academic success of Colorado State students and helps to create a healthy environment necessary for learning. Programs of counseling, treatment, outreach, prevention, assessment, and referral are offered throughout the year. Please call 491-1702 for more information or visit www.health.colostate.edu
Level I programs are short-term, didactic education programs. Level II programs are therapeutically oriented education, long-term outpatient, and comprehensive inpatient programs. Any defendant sentenced to level I or level II programs must meet all financial obligations of such programs [C.R.S. § 42-4-1301.3(2)(c)(iv)]. A “zero tolerance” law – which states that anyone under 21 years of age who is caught driving with a blood alcohol (or breath alcohol) content of .02 or higher is to be charged with driving under the influence – has been in effect for several years [C.R.S. § 42-4-1301(2)(a.5)].

Occasionally, transports result in the need for sanitary cleanup of bodily fluids from police vehicles. These charges are passed on to the person who was transported. The costs range from $50-$200 depending on provider’s “time of day” criteria and the extent of cleanup required.

Under Colorado Law, a person determined by the court to need treatment or to be dependent on a controlled substance may be ordered to undergo treatment for up to four years and may suspend sentencing or further court procedures until such treatment is completed. Failure to comply with, or complete, such treatment may result in sentencing or further court procedures as provided by law.
Colorado State University expects students to maintain standards of personal integrity that are in harmony with the educational goals of the institution; to observe national, state, and local laws and University regulations; and to respect the rights, privileges, and property of other people. In order to protect the academic community and learning environment, all members of the campus community are expected to abide by the standards of academic honesty, personal integrity, respect for diversity, and pursuit of lifestyles free of alcohol and drug abuse. Students are not only members of the academic community; they are, additionally, members of the larger society and thus retain the rights, protection, guarantees, and responsibilities that are held by all citizens. A student is not immune from prosecution by local, state, or federal law enforcement agencies whether or not the University initiates disciplinary proceedings in a given situation.

The Colorado State University Student Conduct Code shall apply to conduct that occurs on University premises, University-sponsored programs or activities, and to off-campus conduct that adversely affects the University community, poses a threat to safety of person or property, or damages the institution’s reputation or relationship with the greater community. In addition, Colorado State University, in collaboration with the Fort Collins community, may respond to student violations of community-based laws and ordinances designed to protect civility and quality of life.

The Conflict Resolution and Student Conduct Services reflects the vision of providing a comprehensive array of approaches to act on the institutional values of interpersonal civility and honoring of community standards. Service options include:

- Conflict resolution services, including consultation, coaching, and mediation
- Training/outreach related to conflict management, academic integrity, civility
• Emergency consultation team
• Advising of student peer conduct boards
• Criminal pre-admission hearings
• Student conduct hearings
• Restorative Justice Program for repairing harm and restoring relationships
• Outcomes/education, including the Drugs, Alcohol, and You (DAY) programs, Party Partners, and skill-building workshops
• Appeals process

Residential Contracts

Students residing in University residence halls or apartments contractually agree to maintain behavior in keeping with federal, state, and local laws; University standards of conduct; and community expectations as outlined in the residential contract and handbook.

Residential staff will hear cases involving violations of the contract. Specific sanctions or restrictions may be imposed as a part of residential disciplinary action including drug and alcohol education; educational programs or activities; monetary restitution; reassignment to another residence hall room or building; and termination of the residential contract or lease. Significant incidents or a pattern of problems will result in referral to University Discipline.

Disciplinary Records

Student disciplinary records are maintained by the Conflict Resolution and Student Conduct Services Office in keeping with the Family Educational Rights and Privacy Act (1973), the Higher Education Amendments (1998), and the Student Conduct Code.

Disciplinary Statistics

Please see pages 54-55 for recent statistics related to University Disciplinary Actions.

The complete text of the Student Conduct Code is available on the Colorado State University website (www.conflictresolution.colostate.edu/conduct-code.aspx).
Colorado State University and the Fort Collins Community

“I had a party yesterday. Today I have a summons for court???”

In 2002, the state of Colorado passed a law related to riots and being present where any riot was occurring. This law, along with local ordinances, relates to nuisance social gatherings. Violating this law can have a significant impact on students who are involved in such events and get arrested. Any student who is convicted of engaging in or inciting a riot is prohibited from attending any state-supported college for a period of one year. Further, it is a misdemeanor for any person to fail to obey orders of police officers to disperse or move-along under riot conditions, even if they are only in the area watching. The main points of the new law are included in ‘bullets’ below. The message: “DON’T MAKE YOURSELF A TARGET – OBEY THE LAW!”

Noise Limits

- Noise that can be heard beyond property lines may be considered too loud.
- Police have the discretion to determine whether or not noise from a property is unreasonable.
- Police discretion is based upon and not limited to:
  - noise level while observing the situation
  - time of day or night
- If the noise is determined unreasonable, a ticket may be issued.
- Noise violators can be subject to fines of up to $1,000 per person for the first offense.

Nuisance Gathering Ordinance

- The Ordinance addresses social gathering impacts on neighboring private or public properties.
- A social gathering is considered 5 or more people.
- Impacts may include and not limited to: trash and litter, public urination, and vandalism.
- It is a misdemeanor criminal offense to the gathering host(s), as the responsible party.
- The people actually littering or vandalizing may not be held responsible.
- The abatement cost may be charged to the gathering host(s), as the responsible party.
Public Nuisance Ordinance

- The Public Nuisance Ordinance remedies chronic problem properties.
- The Public Nuisance Ordinance takes affect on a property when the following occurs:
  - 2 tickets are issued for the same code violation within 6 months or
  - 3 or more separate code violation tickets are issued within 12 months or
  - 5 or more separate code violation tickets are issued within 24 months.

Riot Law – A Colorado State Law

- A public disturbance involving 3 or more people whose conduct:
  - Creates a danger of damage or injury to people or property
  - Substantially obstructs performance of any government function
- Anyone convicted of engaging in a riot cannot attend a public Colorado higher education institution for at least one year.
- Specific possible riot conviction definitions and fines include:
  - Inciting a riot – urging 5 or more people to engage in a riot.
  - Fines begin at $5,000 or 18 months jail up to 3 years or $100,000 for injury or damage.
  - Engaging in a riot – no person shall engage in a riot.
  - Fines begin at $1,000 or 12 months jail up to 6 years or $500,000 for injury or damage.
  - Arming Rioter – no person shall supply a deadly weapon or destructive device for use in a riot.
  - No person shall teach another to prepare or use a deadly weapon or destructive device in a riot.
  - Fine is $500,000 or 6 years in jail.

Please call the Fort Collins Police (221-6540) or Colorado State University Police Department (491-6425) if you have questions about the responsibilities of planning a party. Better yet, go to the Fort Collins Neighborhood Resources website, www.fcgov.com/neighborhoodservices, and look up “Party Paks” and common violations on the right side of the page.

You can also access these resources from the CSU Police Department Web page: www.police.colostate.edu

“It's a matter of identity.”
Often, young people are tempted to “borrow” an ID card or make/obtain one of their own to show underage persons to be of legal drinking age. The result can be arrest warrants issued in the name of the wrong person for a violation they didn’t commit or even know about, misdemeanor or even felony charges against a person using an identity that isn’t theirs, and sanctions through the University.

It is NEVER worth the risk to have or use a fake ID. It’s a matter of identity – YOUR IDENTITY. Colorado is considering legislation that will also require suspension of your driver’s license if you buy for minors or loan your ID to a minor.
Security Policies and Programs

CSU Department of Public Safety, publicsafety.colostate.edu
CSU Police Department, (970) 491-6425, police.colostate.edu

CSU Police officers work closely with the various student advocacy and department offices on campus to maintain a “sense of community.” They work hard to identify safety and security needs and concerns of all our students and staff. This section of the handbook describes the CSU Police and programs related to security issues. You will find the answers to such questions as: How do you report an emergency? What should I do to keep my residence hall safe? How do I practice bicycle safety? What should I do if I’ve been sexually assaulted?

CSU Police Qualifications and Authority

CSU Police officers are armed and have full law enforcement authority on all property owned or controlled by Colorado State. Officers possess peace-officer commissions from the State of Colorado, Larimer County, and the City of Fort Collins. Colorado State University Police Department operates 24 hours a day, 7 days a week.

Colorado State University police officers complete at least 860 hours of training in a state-certified police academy and field-training program in preparation for their jobs.

Colorado State University Police officers routinely patrol on foot all buildings on campus, and have street officers patrolling campus by bicycle, motorcycle, and other motor vehicles. In addition, the department has an Investigations Division with plain clothes detectives. Campus Safety Officers, student employees in “soft uniforms,” round out security and safety services by adding foot patrol and event management capabilities. These employees receive more than 50 hours of training relevant to their duties, with additional training as they take on specialized duties. Campus Safety Officers are trained civilian employees who provide additional presence on campus and provide the “Safe Walk Program.”
The CSU Police maintain a close working relationship with the Fort Collins Police Services, Poudre Fire Authority, the Larimer County Sheriff’s Office, the Office of the District Attorney, and other state and federal law-enforcement agencies and investigation bureaus. CSU Police hold mutual aid agreements with the county and city to deal with contingencies such as natural disasters, civil disturbances, major crimes, and pursuits of serious offenders who travel across jurisdictional lines.

How to Report an Emergency or Crime

The CSU Police Department (CSUPD) is located in Green Hall. CSUPD operates 24 hours a day. Call 911 for emergencies and 491-6425 for non-emergencies.

CSU Police serves as one of the five PSAP (Public Safety Answering Point) in Larimer County handling emergency and non-emergency calls, monitoring the campus-wide alarm systems, and tracking all police incidents on a Computer Aided Dispatch (CAD) system.

Each dispatcher completes a 400-hour, in-house training program and has special training in Emergency Medical Dispatching. This includes ongoing evaluation of medical emergency calls handled by dispatchers under the supervision of a medical doctor.

Promptly call 911 from any phone, and our enhanced ANI/ALI system will allow our dispatcher to see where you are calling from. Keep in mind, though, that the dispatcher will need to know the address of the emergency, not necessarily where the call is coming from. 911 calls made from wireless phones will be routed to Fort Collins Police Services. 911 calls are “enhanced,” meaning that the location and phone number from
which the call comes to our Communications Center are displayed as the dispatcher answers the call.

Colorado State University is equipped with more than 60 emergency blue light phones located throughout the campus. The emergency phones ring directly into the CSU Police Department Dispatch Center when the headset is lifted or simply by pushing a button. Please refer to the map on page 21 for exact locations.

CSU Police give priority to reports of incidents that threaten the life or safety of people, the security of property, or the peace of the community. They handle all reports of crimes and emergencies. Prompt reporting greatly improves campus security and safety.

**In the First Two Minutes …**

A study of police response times and crime clearance rates showed that if police are able to arrive on the scene of a crime-in-progress within two minutes of a citizen report, there is a good chance a perpetrator can be apprehended. The odds quickly decrease as each minute passes.

To report an emergency or a crime in-progress dial 9-1-1. If you are the victim of a crime that occurred on campus you can call and file a report with an officer at 491-6425, or you can file a crime report online at: police.colostate.edu under “Quick Links – Reporting a Crime.” See back cover of this booklet for additional resources.

Your police department needs you to report crimes and suspect activity. Don’t let reporting a crime you’ve witnessed be an after-thought! Immediately go to a safe location and phone. Stay on the line and, as accurately as possible, tell the dispatcher everything you can remember about the suspect, the suspect’s clothing, vehicle, and direction of travel.
Report a Crime Anonymously

To remain anonymous and report a crime to the CSU Police Department, go to the CSU Police Department website at http://police.colostate.edu and click on Reporting a Crime or go directly to http://police.colostate.edu/forms/ReportCrimeFormAnonymous.aspx.

The information you submit will be securely sent to the CSU Police Department without your identity being revealed. If the crime you are reporting is an emergency, please call 911.

What Happens When . . .

You report a medical emergency?

CSU Police dispatchers are trained in emergency medical dispatching. If you are in a position to give first aid to someone or to relay information to another rescuer, the dispatcher is prepared to tell you what to do. Emergency medical personnel and police officers are dispatched to evaluate the patient’s status.

You report a fire?

CSU Police will immediately notify fire and/or emergency medical personnel, then help with evacuation and manage traffic so that fire trucks and ambulances can access the scene. All campus fires should be reported to CSUPD immediately. Call 911 for emergencies and 491-6425 for non-emergencies.

Building Security

At Colorado State, you can feel safe and comfortable in your surroundings, knowing that certain security procedures are in place that are sound and are constantly re-evaluated for their effectiveness.

Most campus buildings and facilities are accessible to members of the campus community, guests, and visitors during normal business hours Monday through Friday, excluding holidays. Certain facilities also may be open for designated hours on Saturdays.

Exterior doors on campus buildings are locked and secured each evening by personnel from Facilities Services. Buildings may be secured
at different times based on factors such as night classes, special events, or computer lab times.

We ask that you take the step of staying aware and avoid circumventing policies or rules that are meant to preserve your own safety and that of others.

• **Do not prop doors open or allow strangers into campus buildings that have been secured.** “Tailgating” is prohibited!
• **Do not lend keys or leave them unattended in your work or living space.**
• **Do not give codes to anyone you don’t know.**

**Planning a Safe Environment**

Colorado State considers security an important consideration in planning, maintaining, designing, and remodeling facilities on campus. Exterior lighting is an important part of the University’s commitment to campus safety.

On a regular basis, problems with exterior lighting are reported by the CSU Police to Facilities Services repair crews. Once a year, a comprehensive survey of all exterior lighting, facility safety, and security is conducted by the CSU Police and Facilities Services. People are encouraged to call the CSU Police when they see a light out or any safety or security-related hazard. Light posts have numbers on them that help repair people find them. If possible, provide the number when reporting a light out. If you notice other safety concerns, please report them as well.

Facilities Services reports problems with door and security hardware daily. CSU Police officers also report defective locking mechanisms to Facilities Services as soon as they are discovered. Shrubbery, trees, and other vegetation on campus are trimmed on a regular basis. Fencing, roadway, and sidewalk repairs are reviewed and completed at least annually.

The CSU Public Safety Team (PST) coordinates and facilitates effective campus disaster preparedness, mitigation, response and recovery activities to minimize the impacts of emergencies on the campus community facilities and environment. Written plans are in place and exercises are regularly held to keep our staff and faculty prepared to handle major events. This team, made up of members from several campus departments, also coordinates efforts under Homeland Security for the University.
Residence Hall Security

Three layers of security exist in the residence halls:

• The lobby area is staffed 24 hours a day.
• Lobbies and common areas are open during dining center hours and then accessible only by residents of the building after hours via keycard access.
• Floors and rooms are only accessible by residents with keycard access. All common bathrooms on the floors are also secured.

Residents are asked not to allow strangers access to the building, either by propping doors, lending keys, or opening doors for anyone waiting outside the building. Visitors and delivery people may use a house phone located outside the main entrance to contact the appropriate host to gain access, once all entries to the building are locked.

All residence hall staff are trained on emergency response and have knowledge of evacuation and safety protocol in the event of an emergency. In the event of an emergency, all lobby doors and common areas can be locked down to permit access to residents of the building only. The option
of locking buildings down entirely to prevent any access into the building is also available.

The CSU Police Department has partnered with Housing and Dining Services to develop a Community-Oriented Policing Program recently. The goal of this program is to place full-time, certified police officers in residence halls regularly to enhance relationships with students and increase security and safety awareness among students and in their places of residence.

**Sorority/Fraternity Security**

Since Greek houses are located off campus, they are under the jurisdiction of Fort Collins Police Services. However, security in sorority and fraternity houses is managed by a variety of corporations. Students and parents who want the name of the management corporation for a particular house should call the Office of Greek Life at (970) 491-0966.

As a result of a verbal collaboration between the Fort Collins Police Services and CSU, CSU Conflict Resolution and Student Conduct Services receives reports of crimes that occur in fraternities and sororities that are recognized as student organizations by Colorado State University.

---

**To find out about crime on campus, review:**

- The *Fort Collins Coloradoan*, the community newspaper
- The *Rocky Mountain Collegian*, the student newspaper
- *Today @ Colorado State*, the online faculty and staff news website
- KCSU and other local radio broadcasts
- Special alerts and activity reports circulated about the University
- Crime bulletins describing specific crimes or perpetrators

**To obtain information about registered sex offenders:**

Information about sex offenders currently registered at the University is available at the CSUPD Records Section during normal business hours. Information about offenders registered at Fort Collins Police Services or the Larimer County Sheriff’s Office are available at those agencies. The State of Colorado convicted sex offender website is http://sor.state.co.us.
Fire Safety and Poudre Fire Authority

Housing and Food Services works very closely with Poudre Fire Authority (PFA) as well as CSU Police and our Environmental Health Services (EHS) to ensure a safe environment for residence hall and apartment life students and their families. Residence hall staff and other University health and safety officials will be involved in observing and monitoring all standards. Periodic inspections of student rooms help promote fire- and life- safety awareness, as well as identifying any noncompliance of safety standards.

In addition, PFA works with CSU in the areas of: public education to students and families living in CSU housing; assistance with scheduled fire drills at all residence halls each semester; cooperative participation between CSU Police and PFA arson investigators in fire situations; and fire code consultation (for building remodels and new construction) through EHS and Facilities Planning. The PFA Fire Marshal is an active member to the Housing and Food Service Fire and Life Safety Core Group and the University Safety Committee.

Colorado State University has policies on the use of portable electrical appliances, smoking and open flames. For example, smoking, candles and open flames are not allowed in residence halls and only safe, low wattage electrical appliances without open coils may be used. For more detailed information on these policies, please see the Residence Hall Handbook or call Residence Life at (970) 491-4719.

Colorado State University residence halls are equipped with smoke and heat detectors, pull stations, fire sprinkler flow switches, and notification devices. Additional features include the networking of all the fire alarm panels to CSUPD that display a detailed graphic map which will pinpoint the exact location of the device in alarm or trouble in the building. PFA also has access to on screen pinpoint monitoring. Fire extinguishers and suppression systems are regularly tested. Fire evacuation drills are performed each semester in the residence halls, and residence hall staff receives annual fire safety training.
Fire safety education and training programs include evacuation drills conducted at University buildings annually and include identifying the location of safety devices (Fire alarm pull stations, AED’s, alternate exits and areas of refuge). Fire extinguisher training is available, upon request, to building proctors, Housing staff (RD’s, ARD’s, RA’s), Faculty and Staff.

For more information regarding fire safety, education or training, please contact Ken Quintana, University Coordinator for Emergency Planning and Response, at (970) 491-4749.

To Report a Fire

In order to report an active fire call 9-1-1. This will notify both police and fire to initiate an emergency response. To report a fire that has previously occurred you may contact:

- Colorado State University Police Department (970) 491-6425
- Housing Assistant Safety Coordinator Veronica Olivas (970) 567-1709
- University Coordinator for Emergency Planning and Response Ken Quintana (970) 491-4749

Evacuation Procedures

When a fire alarm is activated all residents, guests, and staff are to evacuate the building immediately. NO EXCEPTIONS!

In emergencies, panic can be your worst enemy. To reduce panic, plan ahead. Before an emergency arises, make sure you know the location of exits and your meeting area (check with your RA). In a fire situation:

- Don’t panic; stay as calm as possible. You will need to think clearly to make the right decisions.
- Feel the door knob with the back of your hand or palm to test for heat.
- If the door is cool, brace yourself against it, and open it slowly to check for flames and/or smoke.
- If there is smoke in the air, stay low and move quickly in a crouched position or crawl to the nearest exit. The most breathable air is always near the floor. If one exit is blocked, try the next nearest exit.
• Alert others by shouting or knocking on doors as you make your way to the stairs.
• Always escape via stairs – never use elevators.
• Once you evacuate, report to your meeting area, follow directions of fire and police personnel, and never re-enter the building until authorized.
• Failure to evacuate a building is taken very seriously by the Department of Housing & Dining Services and could result in disciplinary action.

There are fire evacuation diagrams and fire extinguishers located on every floor as well as in the main office of each residence hall. Please take time to familiarize yourself with the locations of fire exits, fire extinguishers, and pull-alarm stations in your residence hall.

The procedure for Aspen Hall, Durward Hall, Engineering, Honors, International House, Lory Apartments North, Lory Apartments South and Westfall is full evacuation for any alarm in the buildings. Everyone will be evacuated upon the sounding of any alarm in the buildings.

The procedure for Allison Hall, Braiden Hall, Corbett Hall, Edwards Hall, Ingersoll Hall, Newsom Hall, Parmelee Hall and Summit Hall is evacuation by individual wing. The wing in which an alarm is sounding will be evacuated immediately.

Tampering with fire extinguishers can leave you and others unprotected in case of a fire. Please remember, false alarms could reduce the response of residents when a fire occurs. If hall residents can’t trust the legitimacy of the fire alarm, they may find themselves trapped by fire in a real emergency. Abuse of fire equipment, false alarms, and arson are serious crimes. Violators are subject to fines, University disciplinary procedures, and criminal prosecution.

### Property Damage from Fires

Allison Hall – Kitchen grease fire (no damage, fire extinguisher discharged). One party injured and treated at Poudre Valley Hospital for second degree burns, *unintentional*

Braiden Hall – Burned overhang of building (value $100.00), *intentional*

Corbett Hall – #1 Nametags burned on residence hall door (2 scorch marks value $10.00), *intentional*; #2 Nametags burned on residence hall door (no damage to door only nametags $4.00), *intentional*; #3 Burned post it notes, (no damage), *unknown/not investigated*

Aggie Village – #1 Candle caught poster on fire, (damage to dresser and wall $75.00), *unintentional*; #2 Kitchen grease fire (no damage, fire extinguisher discharged), *unintentional*

Property Damage from Fires

Allison Hall – 1 poster on a board and a bench from a burning diary outside of the building
Edwards Hall – A bank statement burned by a student in the parking lot
University Village – Burned mattress outside of the building
Missing Student Policy and Official Notification Procedures

Pursuant to the Higher Education Opportunity Act of 2008, CSU has enacted a Missing Student Notification Policy and Official Notification Procedures that applies to Resident Students (CSU students who reside in campus housing). If a member of the University community has reason to believe a Resident Student is missing, he or she should immediately notify the CSU Police Department, (970) 491-6425. When a Resident Student is reported missing, CSUPD will initiate an investigation to determine the validity of the report and determine if the Resident Student is missing.

Resident students may designate a confidential contact person to be notified no later than 24 hours after being determined to be missing. If no confidential contact is registered, the Resident Student’s designated emergency contact person(s) will be contacted.

The confidential contact information provided by the student will be accessible only to authorized campus personnel, including law enforcement officials in connection with a missing person investigation.

If an unemancipated student under 18 years of age is determined missing, the student’s custodial parent or guardian will be notified within 24 hours, in addition to the confidential contact person.

If Resident Students of any age are determined to be missing for more than 24 hours, Official Notification Procedures will be followed.

To view the full text of the Missing Student Notification Policy and Official Notification Procedures, official notification card and contact card forms, go to: http://policies.colostate.edu/PolicySearch.aspx and browse to missing student policy, or contact the Housing & Dining Services, Residence Life office at (970) 491-4719.
Emergency Response and Evacuation Procedures

Colorado State University conducts several emergency response exercises each year, such as table top exercises, field exercises, and tests of the emergency notification systems on campus. These tests are designed to assess and evaluate the emergency plans and capabilities of Colorado State University. The university tests its notification systems at a minimum of once per semester. The testing of the notification systems helps the university as a whole to be prepared for emergency and/or dangerous situations. Upon the confirmation of an emergency or dangerous situation involving an immediate threat to the health or safety of the university community, the university will immediately activate the notification systems unless the notification will compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency.

Upon a significant emergency that requires notification to the campus community, members of the CSU Public Safety Team will be notified of the emergency. At least two of the CSU PST members will consult with each other and determine if a notification is needed and what the message should contain. The members will then initiate the notification systems and disseminate the information to the campus community immediately.

Colorado State University Police Department and Public Safety Team have received training in Incident Command and responding to critical incidents on campus. When a serious incident occurs that causes an immediate threat to the campus, the CSUPD are usually the first responders to the incident. Depending on the nature of the incident, the CSUPD could be accompanied by Fort Collins Police Services, Larimer County Sheriff’s Office, Poudre Fire Authority and/or Poudre Valley Hospital Emergency Medical Services. Along with the aforementioned agencies, the CSUPD could be accompanied by campus entities such as Environmental Health Services as well as federal agencies. CSU and CSUPD meet or communicate regularly with these agencies, which have allowed us to have a great working relationship and to help each other when responding to emergencies.

Evacuation drills are coordinated by Residence Life each semester for all residential facilities on the campus of Colorado State University. These drills are completed with collaboration with the CSUPD and Poudre Fire Authority. Each residence hall conducts a minimum of two (2) drills per
year with some conducting as many as four (4) a year. The purpose of the
drills is to prepare the building occupants for an organized evacuation
in case of a fire or other emergency. During the drills, students learn
the locations of the emergency exits in the buildings and are provided
guidance about the direction to travel when exiting the building.

**Timely Warning and Immediate Notification**

Under the Clery Act (20 U.S.C. § 1092) and its implementing
regulations, Colorado State University (CSU), through designated
personnel, is responsible for issuing a “timely warning” if a crime has been
reported and CSU determines there is a serious or continuing threat to the
campus community. In addition, CSU is required to send an “emergency
notification” if there is an immediate threat to the health or safety of
students or employees occurring on campus.

The decision to issue a “timely warning” or an “emergency
notification” will be decided on a case-by-case basis in compliance with
the Clery Act and after consideration of available facts. The issuance of a
timely warning may depend on the nature of the crime, the continuing
danger to the campus community, and possible risk of compromising law
enforcement efforts. Similarly, the issuance of an emergency notification
depends upon the particular health or safety threat. CSU will, without
delay, take into account the safety of the community, determine the content
of the notification and initiate the emergency notification system, unless
issuing a notification will, in the professional judgment of responsible
authorities, compromise efforts to assist a victim or to contain, respond to,
or otherwise mitigate the emergency.

The Public Safety Team, through its Executive Committee, will
determine if an ongoing or continuing threat is a serious situation on or
off campus, such that a timely warning should be issued. A timely warning
will be issued if two or more members of the Executive Committee
agree it should be sent. Because of its urgent nature, the Chief of the
Colorado State University Police Department, or designee, – at the Chief’s
discretion – has the authority to decide that an emergency notification
should be sent. In addition, the Executive Committee of the Public Safety
Team – by agreement of two or more members – also has the authority to
decide that an emergency notification should be issued.

If a “timely warning” or “emergency notification” is deemed necessary,
it will be issued by the Colorado State University Police Department or
the Public Safety Team, through any or all of the following notification methods: (1) CSU e-mail system; (2) Rave Alert, text-based messaging system; (3) Everbridge/reverse 911; (4) CSU Emergency Telephone Network; and (5) Emergency Broadcast System. The warning, or a link to the warning, may also be posted on the CSU home page, the CSU Police Department home page, the CSU Department of Public Safety website or other CSU web resources, as well as local media sites. A copy of the notice may also be posted in residence halls and other CSU building locations. Please pay careful attention to both types of warnings as they are designed to provide information that will enable you to take action to protect yourself. In the event of a timely warning or emergency notification, a follow up message(s) will also be provided via the methods previously described to keep the campus community reasonably informed of the status of the event.

Anyone with information that may warrant a timely warning or an emergency notification should report the circumstances to the CSU Police Department by phone at (970) 491-6425 or in person at the CSU Police Headquarters in Green Hall.

CSU is required to test its emergency notification methods. Typically, such tests will be conducted at the beginning of each semester and the summer session. Tests will be conducted by the Public Safety Team’s communications committee, and will include information advising that it is a “TEST.” These tests are designed to prepare you in case there is an actual emergency.
If You Think Someone Has Stolen Your Identity or Personal Information

➤ ACT – Report the identity theft to your local police department.
   • Many financial institutions will want a copy of the report before they will cooperate with the you.

➤ UNLIKE YOUR FINGERPRINTS, which are unique to you and cannot be given to someone else for their use, your personal data can. You should guard your:
   • Social Security number
   • bank account
   • credit card number
   • telephone calling card number
   • and other valuable identifying data

➤ PROTECT YOURSELF
   • Create a need-to-know approach to your personal information.
     – Banks need to know what?
     – Credit card companies need to know what?
   • Calls from strangers – Ask to have any prizes, credit card offers, etc., sent in writing. Otherwise hang up.
   • Check with the Better Business Bureau at www.bbb.com/

➤ WHAT TO DO
1. Call toll-free at 1-877-ID THEFT (877-438-4338)
2. By mail to Consumer Response Center, FTC, 600 Pennsylvania Avenue NW, Washington, DC 20580
Bicycle and Traffic Safety

Colorado State University bicycle regulations can be found at:

police.colostate.edu; click on the “Campus Bicycle Regulations” link.

Bicyclists are expected to obey traffic laws the same as any other vehicle being driven. Bicycle rules and regulations are established by the City of Fort Collins and the University Bicycle Education and Enforcement Program. Some safety tips for riding your bicycle include:

• ALWAYS wear a helmet.
• Use a light at night.
• Bicyclists must use bicycle paths and lanes where provided.
• NEVER ride through crosswalks; drivers may not see you coming.
• Yield to pedestrians on sidewalks; they have the first “right-of-way.”
• Practice COURTESY while riding and enjoy riding safely.
• Register your bike with the CSU Police Department.

Drivers must obey all Colorado and Fort Collins laws and ordinances and University TEEP (Traffic Education and Enforcement Program) regulations, which are enforced civilly here at CSU. TEEP violations do not effect points on the driver’s license.

It is NEVER a good idea to use a cell phone while driving, riding a bike, or walking in the traffic pattern or roadway. Dividing your attention could get you and/or someone else hurt, especially if someone else is doing the same and is distracted at the same time!
Crime Prevention Programs

Many members of Colorado State University are active in providing crime prevention presentations. These presentations occur most frequently in the residence halls, but are also hosted in academic and administrative buildings, throughout the year. In addition to the CSU Police, crime prevention programs are presented by residence hall staff and staff from the Office of Women, Gender and Equity. Popular topics include: fire safety, personal safety, sexual assault prevention, alcohol/drug awareness, computer crimes and DUI enforcement.

In 2010 the CSU Police Department hosted nearly 150 formal presentations. While programs can be scheduled by contacting the police department or Office of Women, Gender and Equity, many programs are hosted and publicized on a continual basis throughout the year. Programs can also be tailored to meet specific group needs.

Other security measures offered by the CSU Police Department include (but are not limited to):

- Residence Hall Patrols
- Security Surveys
- Personal Property Inventory
- Bicycle Education/Enforcement
- SafeWalk
- Officer Liaison Program

Visit the CSU Police Department website to learn more about:

- Campus Safety Information
- Campus Bicycling Regulations
- Campus Parking Regulations
- CSU Acronyms Used
- Employment Opportunities

- Authority/Jurisdiction
- Department Organization
- Campus SafeWalk Program
- Report a Crime On-Line
- Campus Watch Tip Form

and more – police.colostate.edu
Remember ... in emergencies
dial 911.

The campus environment continually improves through efforts to limit access to residence halls and academic buildings; through environmental design – better lighting, landscaping, and physical security in our facilities – and through the endeavors of the CSU Police Department, which devotes tremendous effort towards preventing crime.

Honest Facts About Sexual Assault

Women’s Programs, (970) 491-6384, www.wps.colostate.edu
Victim Assistance Team, (970) 491-7111
CSU Health Network, (970) 491-7121, www.health.colostate.edu

The majority of sexual assaults that occur in the campus community are committed by people known by their victims, such as casual acquaintances through academic, living, work, social, or recreational interactions, including dating.

Often, these types of assaults are not reported to the police, because people do not think that, when a friend or acquaintance subjects them to unwanted sexual intercourse or contact, this is sexual assault. They may come away thinking, “That was an awful experience. I felt helpless. I feel so angry about it!” but not think of calling the police or available victim services. Also, some victims deny their own victimization as a means of coping with their pain.

The fact is that these types of sexual assaults are more common than what are known as “stranger rapes.” Assailants are able to victimize people
by exploiting their trust. They rely on the fact that you trust that you can be alone with them.

It is impossible for anyone to predict that a sexual assault will occur. You can be alert for unhealthy dynamics in relationships. Avoid people who don’t allow you to make decisions for yourself – who make you feel you “owe them” something.

Because of the frequency of acquaintance sexual assaults in campus communities, it is best to be very explicit with dates about how intimate you expect the relationship to be. Don’t assume that a person knows that you are comfortable with “going so far.” Unfortunately, some people believe that consent to any level of intimacy implies consent to sexual intercourse. This is not true – anyone can say “no” or “stop” at any time. Often, assailants target victims who have been using drugs or intoxicants because of their increased vulnerability. In Colorado, it is a criminal offense to have sexual contact or intercourse with someone who has been using drugs or other intoxicants to the extent that they are unable to indicate their consent or lack of consent. Assailants are no less guilty because they or a victim has been drinking.

In recent years, there has been an increase in the use of drugs that impair someone’s ability to know what is going on and to subsequently make them more vulnerable to sexual assault. Drugs like GHB or Rohypnol (“roofies”) can be secretly slipped into a beverage (non-alcoholic and alcoholic drinks alike). The drug has no smell or taste and generally no color. These drugs can be present at bars and clubs, but also at parties and intimate gatherings. The reality is that “date rape drugs” can be slipped into your drink at any social setting. Victims of sexual assault are not at fault for what has been done to them, whether drugs were used or not. The perpetrators of this crime are fully responsible for their illegal behavior. There are some things that can be done, however, to reduce the chance that you will unknowingly consume a substance like GHB, Rohypnol, or Ketamine:

For information on “date rape drugs” like GHB, Rohypnol, or Ketamine, contact 491-1702, Center for Drug and Alcohol Education, or 491-6384, Women’s Programs and Studies. Advocates receive special training in the physical, psychological, and legal ramifications of sexual assault. Advocates are bound by state statute to maintain strict confidentiality. Information gained as part of victim advocacy must be treated confidentially and cannot be released without the victim's permission. Advocates will provide information about options related to crime reporting, but the final decision is up to the individual victim.
**How to reduce your risk:**

- Always keep your beverage in sight. Don’t leave it while dancing or going elsewhere.
- At a bar or club, accept drinks only from the bartender or server.
- Avoid group drinks, punch bowls, or drinks being passed around.
- Open your own containers.

If you experience the following symptoms, tell someone immediately or go to the hospital (or CSU Health Network if during business hours):

- Dizziness, vomiting, extreme drowsiness, time that can’t be accounted for and can’t be attributed to anything else, or any other unexplained symptoms.
- Try to retain a sample of the beverage.

---

**To Report a Sexual Assault**

To report a sexual assault, students should go to a safe location and call:

- **CSU Police at 911**
- **Colorado State University Victim Assistance Team (VAT) at Campus Emergency, 491-7111**

*These offices will educate victims about the option of reporting to the police and let them know it is their choice whether or not to do so. If victims choose to report, the offices will support this decision and will offer assistance in notifying the police.*

It is important that victims try to preserve evidence that may be necessary to prove criminal sexual assault. If victims confide in a friend about the assault, that friend can help the victim remember these guidelines:

- Do not remove clothing, especially underclothes, worn during or following the assault, as these frequently contain valuable fiber, hair, and fluid evidence.
- Don’t bathe, douche, wash hands, clean fingernails, launder sheets, wash car upholstery, or rearrange furnishings or personal effects.
Victims can protect their option of pressing criminal charges at a later date by going to the Women’s Clinic at CSU Health Network or, after hours, to the local hospital emergency room. Ask for an exam and for evidence of the sexual assault to be collected and sealed.

For counseling, mental health, or student services, victims may contact:

- Colorado State University Office of Women’s Programs and Studies Victim Advocates, 491-6384
- Victim/Witness Assistance Unit, Larimer County District Attorney’s Office, 498-7235
- CSU Health Network Counseling Services, 491-7121
- Counseling Center, 491-6053

Primarily, Support and Services for Victims of Sexual Assault are provided on campus by the Colorado State University Victim Assistance Team (VAT). The Office of Women’s Programs and Studies trains and oversees the VAT.

The primary purpose of the VAT is to provide support for members of the campus community who have experienced sexual assault. Advocates receive special training in the physical, psychological, and legal ramifications of sexual assault.

The VAT has team members on call 24 hours a day, every day of the year. An advocate may be requested by calling Campus Emergency, 491-7111. This contact does not oblige the caller to make a police report. The dispatcher will request the caller’s name and phone number and have an advocate get in touch with that individual. The CSU Police will honor caller requests for anonymity. General information regarding the VAT can be obtained by calling the Office of Women’s Programs and Studies at 491-6384.
VAT advocates work closely with victims and campus and community law enforcement agencies. This includes assisting victims of sexual assault in reporting these crimes to the police if they choose to do so. In addition, advocates are informed on medical, law enforcement, legal procedures, and campus disciplinary options and can provide other referral sources to help ensure sexual assault victims receive the services they want and/or need, such as counseling.

The possible sanctions for students who commit sexual assault, acquaintance sexual assault, or other forcible or non-forcible sex offenses, following an on-campus disciplinary procedure, are detailed in the Colorado State University Student Conduct Code. A copy of this policy is available on the Web at www.conflictresolution.colostate.edu/conduct-code.aspx. Typical sanctions include disciplinary probation, suspension, dismissal, and/or expulsion.

The procedures for on-campus disciplinary action in cases of alleged sexual assault are described under the heading, “Administrative Hearing Procedure” in the Student Conduct Code. When the alleged perpetrator in a sexual assault is a student, the student may be referred through the Conflict Resolution and Student Conduct Services.

During a campus disciplinary proceeding, both victims and students accused of sexual assault are entitled to:

• have an adviser or support person present.

Both the alleged perpetrator and victim must be notified of the outcome of the proceeding.

Victims of alleged assaults can request changes in academic or living situations. Such requests will be accommodated when possible. The Conflict Resolution and Student Conduct Services Office will inform students of their options and available on-campus assistance in these situations.
Sexual Assault Programs Available Through the Office of Women’s Programs

Advocacy programs:

Victim Assistance Team – 24-hour hotline for survivors of sexual assault and those close to them (will also provide accompaniment to police or hospital).

Office of Women’s Programs advocacy – Ongoing advocacy for survivors of sexual assault, relationship violence and stalking. We provide support around legal, medical, emotional, academic and campus disciplinary options and concerns (will provide accompaniment to on campus or off campus services).

Prevention programs:

Sexual assault education programs – Provide programs for the campus community educating around sexual assault, consent, and supporting survivors (Women’s Programs report they conducted 123 sessions for 2010 with an attendance of 5300 people).

Student Alliance for Gender Education – Students who are trained to provide sexual assault education programs to their peers (course offered every spring semester).

Sexual Harassment

Any member of the University community who believes that he or she has been subjected to sexual harassment shall contact the Office of Equal Opportunity to request advice and information about possible ways to proceed and to put the University on notice. Such discussion will be kept confidential to the full extent permitted by law. Complainants are advised that there are some instances in which the University has a responsibility to act even if the Complainant requests that no action be taken as, for example, where other members of the University community may be at risk. In those cases, the University may investigate and take action on the basis of facts it discovers.

Information related to registered sex offenders who have provided registration information to the CSU Police is available at the Records Desk.
of the CSU Police Department during normal business hours. Information related to sex offenders registered in Fort Collins or Larimer County is available from the Fort Collins Police Services or the Larimer County Sheriff’s Office. Additionally, the Colorado Sex Offender Registry is available on the Web at sor.state.co.us.

**Domestic Violence**

Sadly, violence is a “modern reality” to which students in academic settings are not immune. In Colorado, two people involved in an intimate relationship (e.g., married, boyfriend and girlfriend, intimate partner, etc.), where an argument results in injury, crime, or damage to property, or where violation of a valid restraining order is evident, are in a situation where an arrest is **mandated**: officers have no discretion. Often, police receive calls from the victims, from friends, or from concerned neighbors who hear the noise of an argument or fight. When probable cause exists and officers believe that a crime occurred during a domestic situation, an arrest(s) will be made.

**Stalking**

Stalking, which is a crime in the state of Colorado, is on the rise in many academic settings. It is generally defined from a legal standpoint as “willful, malicious, and repeated following and harassment combined with a credible threat intended to cause victims to be in fear for their safety.” Phases of stalking can include a number of behaviors. They range from mental obsession or preoccupation with a person; to gathering information about that person from their mail (print or electronic), trash, or friends, and family; to harassing the victim via phone or Internet or by following or pursuing the victim either from a distance or up close.

If you believe you are being stalked, let someone know. Document all activities related to the person who you believe may be stalking you and report the incident to the police. Don’t discount the situation and ignore the “red flags.” Trust your judgment. If a situation doesn’t feel right, ask for help!
Dater’s Bill of Rights

I have the right to refuse to date without feeling guilty.

I can ask for a date without feeling rejected or inadequate if the answer is no.

I may choose not to act seductively.

If I don’t want physical closeness, I have the right to say no.

I have the right to be myself without changing to suit others.

I have the right to change a relationship when my feelings change. I can say, “We used to be close, but I want something else now.”

If I am told a relationship is changing, I have the right not to blame or change myself to keep it going.

I have the right to an equal relationship.

I have the right not to dominate or to be dominated.

I have the right to act one way with one person and a different way with someone else.

I have the right to change my goals whenever I want to.

Victims’ Rights

The University is committed to providing appropriate support and referrals to persons who have been the victims of any crime or violation of University policy. Persons who have been victimized by a Colorado State University student may choose to report the incident to the CSU Police or to the Conflict Resolution and Student Conduct Services Office to initiate criminal and/or disciplinary action. Victims also have the option to receive personal support from appropriate University resources.

When dealing with University agencies, the victim can expect:

• to be treated with respect;
• to have confidentiality maintained (within the bounds of the law and University policy);
• to have University or criminal proceedings fully explained;
• to receive assistance in relocation within or to campus housing if desired;
• to receive referral information for support services;
• at the victim’s request, to receive University cooperation in using University procedures to deter harassment or retribution.

If University disciplinary action is initiated, the victim can expect:

• to be notified of scheduled disciplinary proceedings;
• to be apprised of potential hearing outcomes;
• to attend the disciplinary hearing, as a witness, if requested by the accused, hearing officer, or panel or if the victims desires to do so;
• to be accompanied by an adviser or support person at the hearing;
• to provide a victim impact statement for consideration by the Hearing Officer or panel;
• to be informed of the general outcome of the hearing;
• at the victim’s request, to be informed (to the extent permitted by law) of the impending return of the perpetrator to campus, if the conditions of the suspension or dismissal were met prior to the victim’s departure from campus.
• the institution will, upon written request, disclose to the alleged victim of a crime of violence or a non-forcible sex offense, the report on the results of any disciplinary proceeding conducted by the institution
against a student who is the alleged perpetrator of such crime or offense. If the alleged victim is deceased as a result of such crime or offense, the next of kin of such victim shall be treated as the alleged victim for purposes of this paragraph.

Brochures detailing victim’s rights in crimes, published by the Larimer County District Attorney, are available at all local law enforcement agencies.
What Do Crime Statistics Tell Us About a University?

A lot and, sometimes, not enough. On one hand, crime statistics tell us what has been reported to officials. On the other hand, it may or may not be representative of what is actually occurring. Crime, and specifically violent crime, is said to occur on most campuses in the United States. Colorado State University has been committed for decades to the safety, protection, education, and awareness of its students, faculty, staff, and community. Long before it was required by law, and certainly before it was popular to do so, Colorado State made crime statistics available through this publication and other campus and community media. In doing so, the University community has become aware of safety concerns and what is happening around them. In addition, Colorado State has made a commitment to offer and provide victims of crime with the best possible care and services.

The Chronicle of Higher Education has noted that colleges and universities that have comprehensive resources and services experience an increase in crime reporting. The resources and services at Colorado State University include the CSU Police Department, the Sexual Assault Victim Assistance Team, and CSU Health Network. These programs provide support and safe environments that encourage the reporting of crimes by students. Victims receiving counseling will be informed of any procedures to report crimes on a voluntary, confidential basis for inclusion in the annual disclosure of crime statistics. CSU Police will investigate anonymous and/or confidential reports of crimes and can provide options for pursuing criminal, civil charges, or University discipline against the assailant.

The following pages contain disciplinary and crime statistics for Colorado State University. The Conflict Resolution and Student Conduct Summary Report is a compilation of the total number of disciplinary referrals the office sees that may have resulted in arrests, as well as referrals to university disciplinary administrators in the categories of (a) weapons possession, (b) violations of drug law, and (c) violations of alcohol/liquor law. The arrests made by CSU Police for Weapons violations, Alcohol citations, and Drug use violations are reflected in the crime statistics on page 54.

The numbers published are compiled from reports made to “Campus Security Authorities” including CSU Health Network, Human Resources,
The information included in this report is being provided in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act of 1990, the Drug-Free Work Place Act, the Drug Free Schools and Communities Act of 1989, and the Higher Education Amendments of 1998. This publication is intended to provide a general description of campus security arrangements and not to serve as a contractual agreement between the University and the recipient. Security procedures are subject to change without notice.

Victim’s Assistance Team, Conflict Resolution and Student Conduct Services, Athletics, CSU Police Department, Fort Collins Police Services, and the Larimer County Sheriff’s Department.

Crime and violent crime is a national problem. Statistics are often misunderstood. Please take the time to consider crime information and related statistics carefully.

Statistics for adjacent law enforcement jurisdictions, Fort Collins Police Services, and Larimer County Sheriff’s Department, can be found in the most recent edition of the Federal Bureau of Investigation Uniform Crime Reports at your public library, or by request to those agencies.
## Conflict Resolution and Student Conduct

### Summary Reports

Due to Clery Reporting changes, the 2009 and 2010 statistics for Conflict Resolution and Student Conduct can be located under Police Crime Statistics.

</table>

**Forcible Sex Offenses include:**
- **Forcible Rape/Sodomy/Assault with an Object** – The carnal knowledge of a person, forcibly and/or against a person’s will or where the victim is incapable of giving consent.
- **Forcible Fondling** – The touching of private body parts of another person for the purpose of sexual gratification, forcibly or against that person’s will or where the victim is incapable of giving consent.

**Non-Forcible Sex Offenses include:**
- **Other Non-Forcible Sex Offenses** – Incest and Statutory Rape.

**The following three types of incidents must be reported if they result in an arrest:**
  
  The above three categories include CSUPD plus Fort Collins Police Services and Larimer County Sheriff’s Office. Non-Campus stats also obtained from Denver, Brighton, Loveland, Thornton, and Colorado Springs Police Departments.

**Other CSU Non-Campus Property includes:**
- ARDEC
- Colorado Visitor Center
- CSU Extension Offices state-wide
- Energy Conversion Plant
- Environmental Learning Center
- Foothills Campus (beginning 2009)
- Hughes Stadium (beginning 2009)
- Pingree Park
- University Village/International House
- Denver/Brighton/Loveland/Thornton/Colorado Springs campuses (2010)

**Hate Crimes:**
- 2010 Hate crimes involved harassments: Anti-Asian (residence hall), Anti-Black (non-campus), and Anti-Hispanic (on-campus).
- 2009 On-Campus Hate Crimes were Anti-Hispanic and Anti-Gay Harassment respectively.
- 2008 Hate Crime for fraternity/sorority was an Aggravated Assault, Anti-Gay, and Anti-Black.
- 2008 On-Campus (residence hall) Hate Crime involved Anti-Gay Harassment.

The numbers shown occurring in CSU Residence Halls are the portion broken out from the total which occurred on the CSU Campus.

^ Disciplinary referrals for 2008 have additional numbers summarized in Conflict Resolution and Student Conduct 2008 table which isn’t broken down by geography.

* 2009 numbers have been modified from 2010 report due to training aiding in better data extraction.

> Per Feds 2009 arson number for residence halls changed from 6 to 5 due to criteria of “in or on” – this now matches the Clery fire statistics (effective 11/16/10).

** 2008 Public Property Burglary numbers changed to reflect accurate reporting of boundaries.

7 Days a week during the semester. Dusk until Dawn

Colorado State University
At Colorado State University, the University Safety Committee and Environmental Health Services partnered with five departments – Athletics, Campus Recreation, Conference Services, Facilities Services, and Health and Exercise Science – to purchase the Thor Guard Lightning Prediction and Warning System for a majority of the Main Campus (Intramural Fields, Jack Christensen Track, and the Ropes Course) as well as Hughes Stadium.

While the system is not infallible, and good judgment should still be followed, the system will be an important tool for enhancing safety of University sanctioned activities involving students, employees, and visitors. All of the partners are confident that this system – if its warnings are responsibly heeded – will substantially reduce the chances of a lightning-related tragedy occurring at these sites.

The sensor constantly monitors atmospheric conditions within a 2-mile radius of the sensor that can cause lightning and sends a signal to the horn assemblies when a danger threshold is passed. The horn assemblies then sound a “red alert” alarm – a strobe light on the assembly begins intermittently flashing, and one 15-second-long blast from the horns is sounded in all directions that can be heard approximately 700 yards away – to warn people at the sites to seek appropriate shelter for the duration of the red alert period. All outdoor activities must cease during red alert periods to protect all users of these sites. Appropriate shelter includes surrounding buildings, automobiles/trucks, and, when one of those is not available, dense woods or low-lying areas. However, if the conditions appear unsafe and a red alert alarm has not sounded, good judgment should be your guide, and activities should still cease despite the absence of a Thor Guard warning.

When the danger has passed (a minimum of 10 minutes after the original alarm), it will send the all-clear signal to the horn assemblies – the strobe light will stop flashing, and three separate, 5-second-long blasts from the horns will sound. After the all-clear signal has sounded, it is safe, according to the Thor Guard system, to resume outdoor activities. However, good judgment should still govern, and if the conditions do not appear to be safe to resume activity, it is best to wait until the weather circumstances change regardless of an all-clear from Thor Guard.

If you have any questions or would like to learn more about the Thor Guard system please send an e-mail to Ken.Quintana@ColoState.Edu or call (970) 491-6121.

**Please note that the Thor Guard system’s horns and strobe lights will be tested the first Tuesday of every month at about 9 a.m.

---

**Lightning Safety Tips**

**Seek**
- Clubhouse
- Maintenance Buildings
- On-course Buildings
- Automobiles/Trucks
- Lightning Shelters

When one of the above is not available, seek...
- Dense Woods
- Low Lying Areas

**Avoid**
- Open Areas
- Water
- Tall Trees
- Metal Fences
- Overhead Wires & Power Lines
- Elevated Ground
- Golf Carts
- Mowers
- Cellular Phones
- Radios

There Are Two Audible Warning Signals:

- Lightning imminent: immediately take cover!
- Reduced Danger: Three (3) short blasts

This system is designed to help you assess conditions. Whether the signal for the system is exercised to guarantee that conditions are safe.
