

Emergency Management Plan

202.1 PURPOSE AND SCOPE

In compliance with the State of Colorado Emergency Operations Plan, the University has prepared or adopted an Emergency Operations Plan (CRS § 24-33.5-707). This plan provides guidance and is to be used by all work groups and employees in the event of a major disaster, civil disturbance, mass arrest or other emergency event. The plan provides for a strategic response by all employees and assigns specific responsibilities in the event the plan is activated. Regardless of the incident type or scope, critical incident response will follow Incident Command System (ICS). This system is also used by local, regional, state and federal partners (NIMS), ensuring efficient and effective interoperability and cooperation.

202.2 ACTIVATING THE EMERGENCY OPERATIONS PLAN

The Emergency Operations Plan can be activated in a number of ways. For the Police Department, the Chief of Police or the highest ranking official on-duty may activate the Emergency Operations Plan in response to a major emergency.

202.2.1 RECALL OF PERSONNEL

In the event that the Emergency Operations Plan is activated, all employees of the Colorado State University Police Department are subject to immediate recall. Employees may also be subject to recall during extraordinary circumstances as deemed necessary by the Chief of Police or the authorized designee.

Failure to promptly respond to an order to report for duty may result in discipline.

202.3 LOCATION OF THE EMERGENCY OPERATIONS PLAN

Copies of the plan are available on the Colorado State University Public Safety website. All supervisors should familiarize themselves with the Emergency Operations Plan and the roles personnel will play when the plan is implemented.

The State of Colorado Emergency Operations Plan and additional regional information can be found on the Colorado Office of Emergency Management website.

202.4 UPDATING THE PLAN

The University Public Safety Team and Chief of Police or the authorized designee shall review and update, if necessary, the Emergency Operations Plan at least once every two years to ensure it conforms to any revisions made by the National Incident Management System (NIMS) and the Standardized Emergency Management System (SEMS), and that any needed revisions are appropriately addressed.
